

Addition Problems, Set 5: Challenges (page 1 of 2)

Write a story that matches each problem. Solve the problems. Show your work.

1.
$$\begin{array}{r} 56 \\ +86 \\ \hline \end{array}$$

2. $58 + 45 + 17 = \underline{\quad}$

Addition Problems, Set 5: Challenges (page 2 of 2)

Write an equation. Solve the problem.
Show your work.

- 3.** Franco picked 34 flowers. Sally picked 49 flowers, and Jake picked 22 flowers. How many flowers did they pick in all?

- 4.** Jake counted 58 grapes on one vine and 62 grapes on another vine. How many grapes did Jake count in all?
